

March 1, 2010

I am currently living in a sober house and feel if the proposed changes will cause me to lose out on my recovery. I honestly feel that DHMAS has my best interest and the Legislative Office does not. I am afraid that each year that this bill will be amended and the outcome will not have my best interest or the recovery community at heart in mind. DHMAS has the experience and knowledge to help me with my journey in recovery.

Thank you,

Quintina Rogala
